Making a module
 Brandon Weekes
 All Sections

Hey this was a great paragraph and link for creating a module. Create a Module in Canvas. It needs to have at least 3 functional things in the Module. Things you could have in your Module; Assignments, Quizzes, Files, Pages, Discussions, Text Headers, or External Tools. So for this option choice you will also need to learn how to create other things in Canvas(you can look at the links in the other options to learn how to make an assignment, quiz, etc. or just do a tutorial video search on Youtube).

Click this [link](#)

(Links to an external site.)

Review the link and then discuss.
